PROFESSIONAL SUMMARY

MCA student specializing in Cybersecurity and Security Operations, with hands-on experience developing cybersecurity-focused applications, database-backed systems, and Python automation projects. Experienced with PostgreSQL, Python, web technologies, Microsoft Azure, APIs, and security monitoring concepts. Developed and deployed the Sentinel / Threat Nexus cybersecurity platform with PostgreSQL-backed data management and security-oriented operational workflows. Strong foundation in programming, troubleshooting, system development, and analytical problem-solving. Seeking opportunities in Cybersecurity, SOC Operations, and Security Analysis.

EDUCATION

Master of Computer Applications (MCA) — Institute of Technology and Science (ITS), Mohan Nagar | Expected 2027 | 68.33%

Bachelor of Computer Applications (BCA) — Institute of Professional Excellence & Management (IPEM) | 2025 | 58.78%

Class XII — Dewan Public School | 2022

Class X — Dewan Public School | 2020

TECHNICAL SKILLS

Cybersecurity: Security Monitoring, SOC Concepts, Threat Monitoring, Cybersecurity Fundamentals, Security Operations Concepts

Programming: Python, C, C++, Java, JavaScript

Database: PostgreSQL

Web Technologies: HTML, CSS, JavaScript, MERN Stack Fundamentals

Cloud: Microsoft Azure, Cloud Computing Fundamentals

Tools & Concepts: APIs, Automation, Discord Bot Development, Power BI, Microsoft Excel, Microsoft Office

PROJECTS

Sentinel / Threat Nexus — Cybersecurity Monitoring Platform

PostgreSQL | Python | Web Technologies | Database Systems | Cloud Deployment

- Developed a cybersecurity-focused monitoring platform for centralized visibility into security-related information and operational activity.
- Implemented a PostgreSQL-backed database for persistent application data storage and retrieval.
- Developed application functionality supporting security monitoring and administrative workflows.
- Worked on backend integration, database connectivity, authentication-related functionality, and deployment.
- Deployed the project to a cloud-hosted environment and troubleshooted backend and cross-device connectivity issues.
- Designed the platform around SOC-oriented monitoring workflows, creating a foundation for future threat detection, alerting, and incident-monitoring capabilities.

Live Project: <https://sentinelops-frontend-y5uh.onrender.com/dashboard>

Student Performance Analytics System

Python | Web Technologies | Data Analytics | Database Systems

- Developed an end-to-end web application for analyzing and presenting student performance data.
- Implemented data processing and analytical functionality to transform raw information into actionable performance insights.
- Designed dashboard interfaces for presenting analytical results in an accessible format.
- Worked on backend configuration, database integration, local development, and deployment troubleshooting.

Discord Automation Bots

Python | Discord APIs | Automation

- Developed Python-based Discord bots for automated server functionality and user interaction.
- Implemented music functionality, moderation capabilities, utility commands, and personal-assistant features.
- Applied API integration, event-driven programming, command handling, and automation concepts.

Netflix Clone

HTML | CSS | JavaScript

- Developed a Netflix-inspired web interface to strengthen frontend development and responsive UI skills.
- Implemented structured layouts, navigation, content sections, and interactive components.

Mehfil Music Website

HTML | CSS | JavaScript

- Developed an interactive music-focused website with a user-oriented interface.
- Applied responsive web-development principles and frontend design techniques.

PROFESSIONAL EXPERIENCE

Creator Outreach Manager — Frame Face

6 Months

- Managed creator outreach and professional communication for brand campaigns.

- Coordinated creators regarding campaign requirements, schedules, deliverables, and participation.
- Assisted with creator identification and coordination according to campaign objectives.
- Developed communication, negotiation, organization, stakeholder-management, and deadline-management skills.

CERTIFICATIONS

- MERN Stack Development — College Certification
- Cybersecurity — College Certification
- Cloud Computing — College Certification

CORE STRENGTHS

Problem Solving | Analytical Thinking | Technical Troubleshooting | Communication | Team Collaboration | Adaptability | Project Development
